

## **Bridge Closure Begins Tuesday** *50<sup>th</sup> Avenue Bridge to Undergo Repairs*

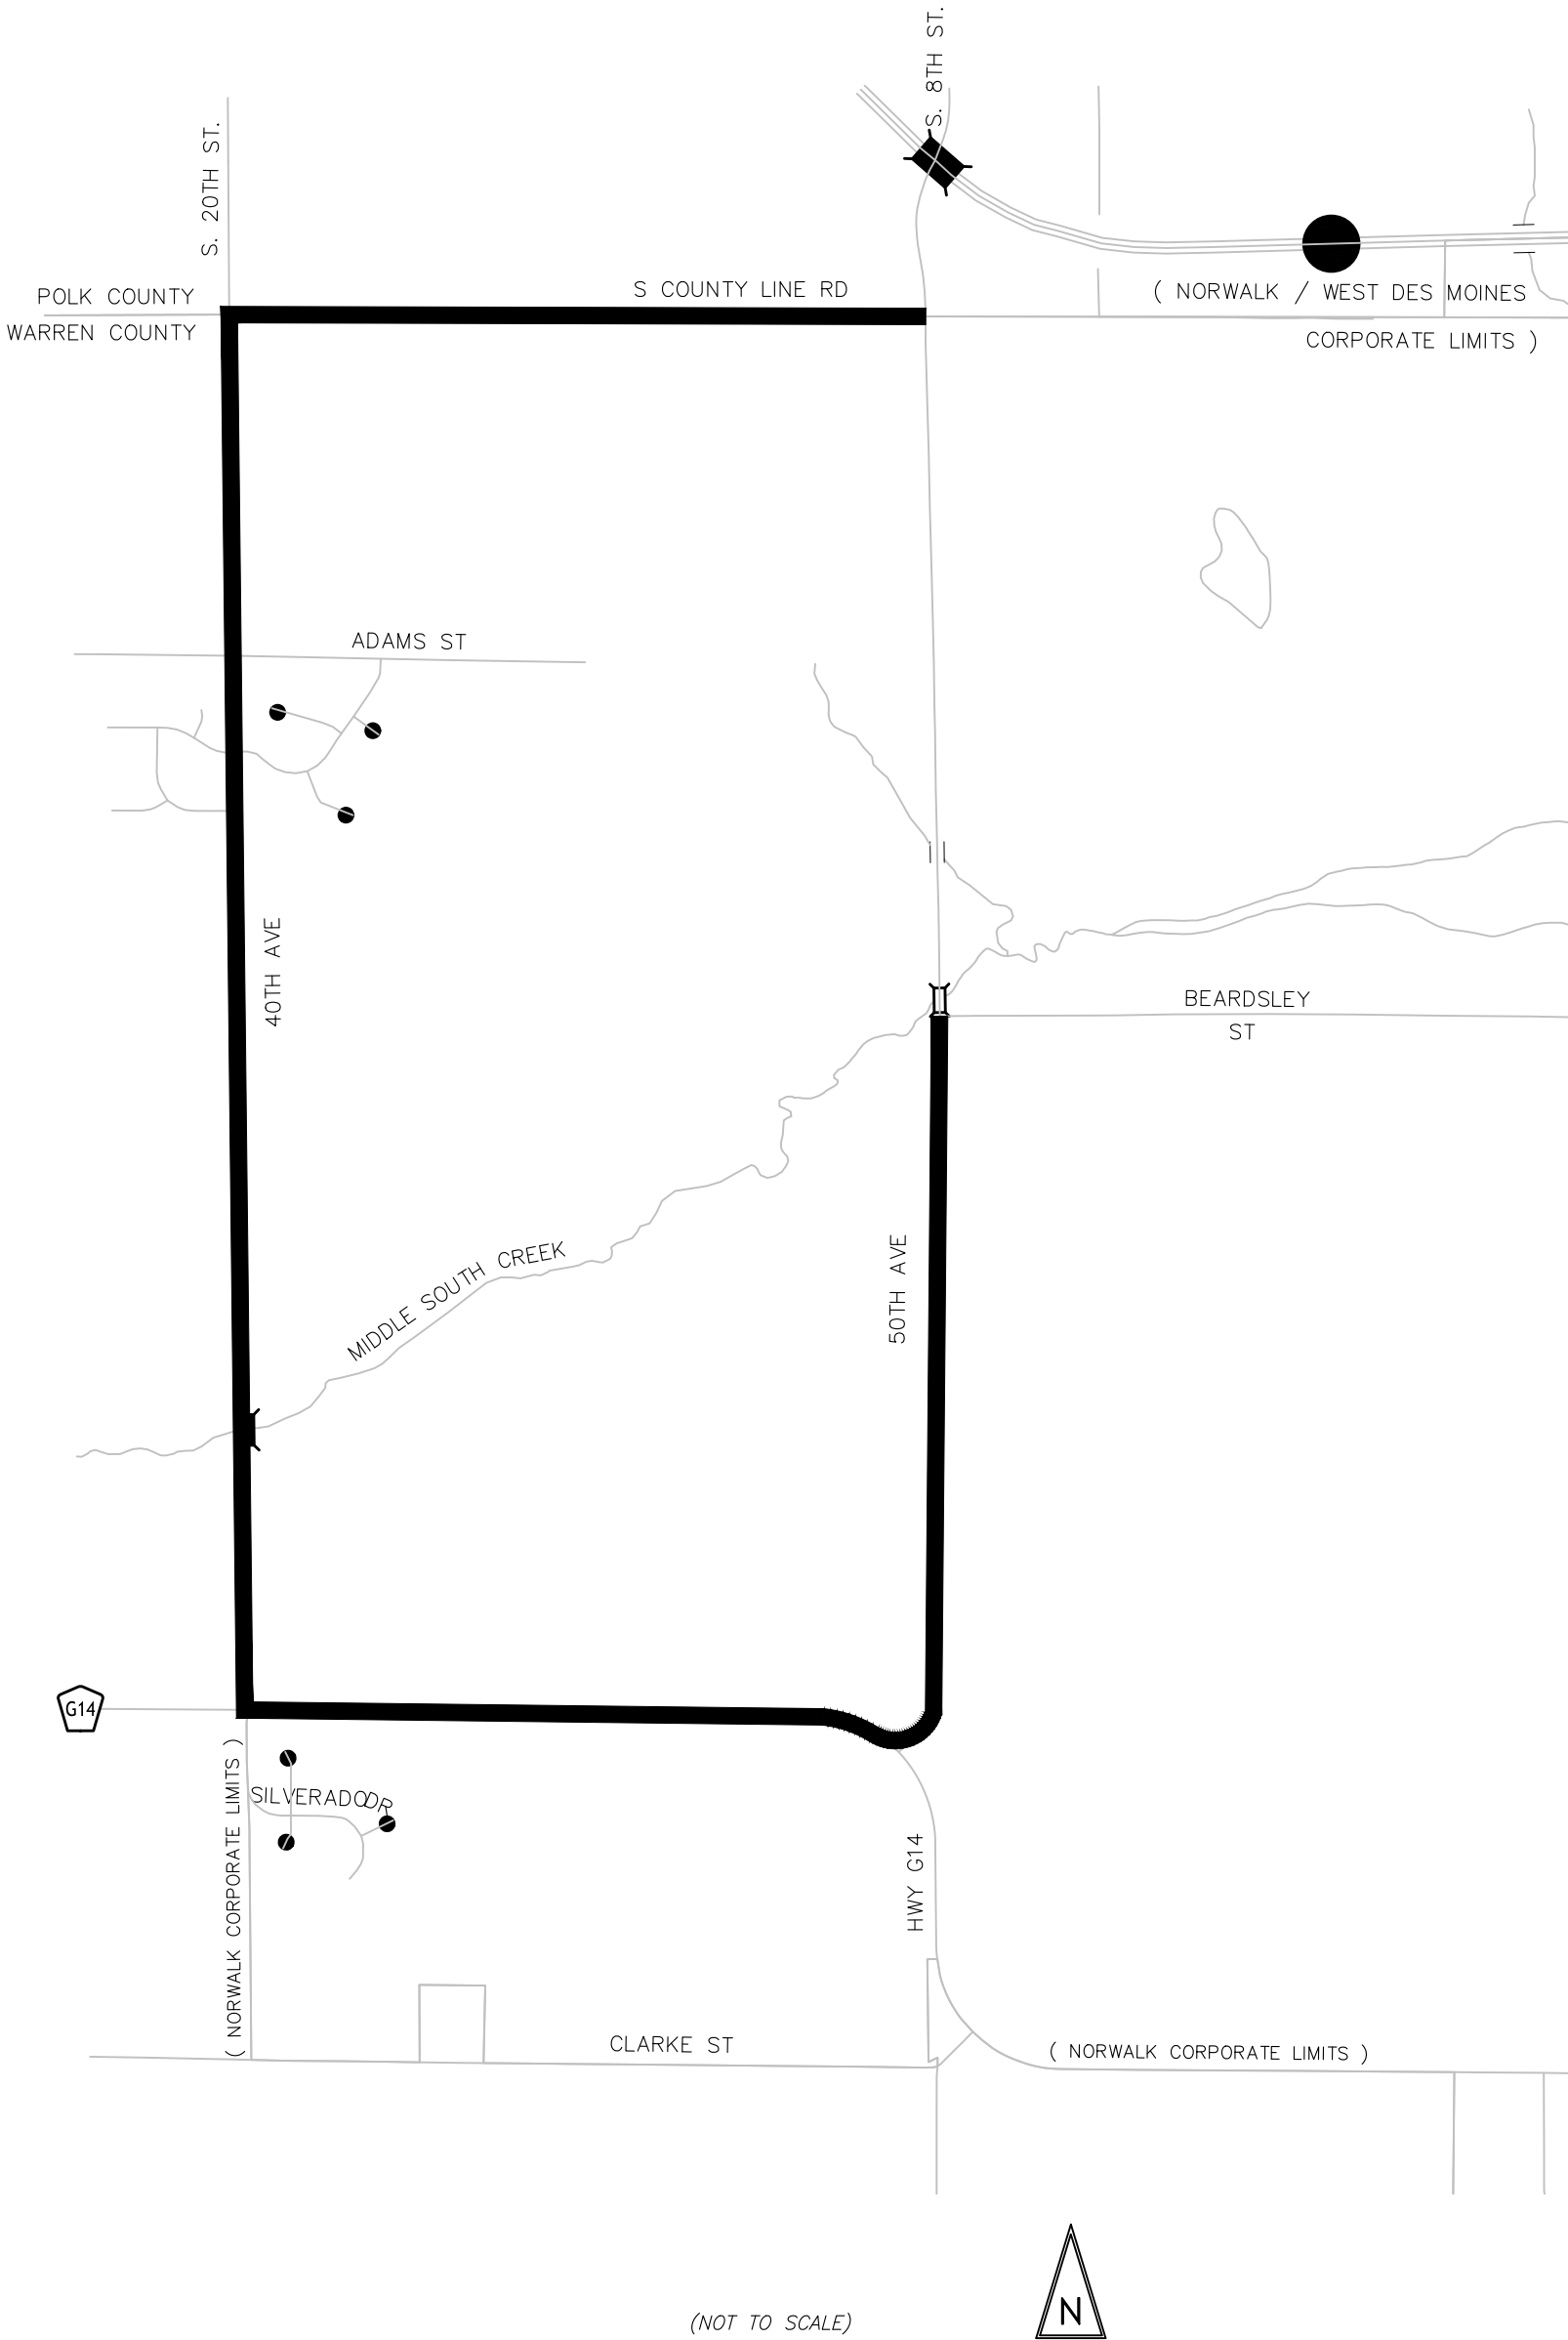

September 30, 2016 – Repairs on the 50<sup>th</sup> Ave Bridge, north of Beardsley Street, begins Tuesday, October 4 and will shut down the bridge for approximately two months weather permitting.

“This project was proposed for early Spring 2017 but since the contractor had time between projects, we are able to move this bridge repair up by six months,” said Luke Nelson, Norwalk City Manager. “We understand that this short notice on the road closure will be a bit of an inconvenience but the end result will be a greater benefit to the community and our residents.”

Iowa Bridge and Culvert, LC will be performing the bridge repair for the City.

Updates will be available at [www.norwalk.iowa.gov](http://www.norwalk.iowa.gov) as this project progresses. For questions, please contact Public Works Director Tim Hoskins at 981.9527.
